The text was updated successfully, but these errors were encountered:. PPSSPP emulation is lagging when audio backend is turned on. Well, I have Dolby Advanced Audio v2 installed into my W7 system, along with the Realtek Audio Driver was installed too:). But I don't think what the DAA program is causing any lags within the PPSSPP's emulation process and within the core itself. Hey, buddy, I know, what this emulator's issue was described a lot of times already, and you can find tens of topics all around the Internet. However, this issue remains unsolved still. This is a pretty strange thing, isn't it? You can't perform that action at this time. This concludes our tutorial on how to speed up the PlayStation Portable emulator. Thank you for watching VisiHow! If you have any other comments or questions, please leave them in the comments section below. [Unknown], this issue is

including choppy sounds, which you can hear during the gameplay process. These sounds were caused by small size of underrun buffer. Emulation itself have a lagging black textures too. So, i'm thinking what the issue's source was found and described already - at the end of your own topic: #8246. Not sure what's causing the performance issue when audio is enabled. You don't have any recording software or other audio related software installed/running, do you? For most games, it's better to set the Frameskipping to "1" by clicking it. If you have problems with any of the steps in this article, please ask a question for more help, or post in the comments section below. Scroll down the "Graphics" section on the right side. You need to change several things. Depending on the game, you might need to change either one thing or another. In this tutorial, changing the options for most games will be shown. Update it to get the best YouTube experience and our latest features. Learn more. Have you tried all the options in the audio menu?. Depending on the game, you should check or uncheck hacks or speed hacks in "Hack settings (may cause

glitches). For example, "Timer hack" can be used for the timed games. Also, experiment with "Disable alpha test (Power VR speedup, artifacts)", "Disable stencil test", "Texture cord speedhack (speedup)", and "Depth range hack (Phantasy Star Portable 2)" (it's just for Phantasy Star Portable 2). Yes, I have tried all of them. There is no difference between anything of three audio backends. Changing of audio latency don't took any effect for gameplay lags. Also, speed hack enabling can't changed anything too. Let's open up the emulator by double-clicking its icon. PPSSPP emulation is lagging when audio backend is turned on. Underruns are a bad thing: it means there's not enough audio data. Of course, when audio is disabled, this happens. It's a good thing when the underrun counter is frozen in place - that means you're not dropping audio frames. Make sure not to check "Fullscreen". You will have a better frames-per-second rate. Hi! You're watching VisiHow. In the previous tutorial, we displayed FPS. This is a tutorial on how to speed up the PlayStation Portable emulator. I'm closing the topic because a source of an issue was found by the community. I was noticed a strange behaviour of emulator with audio backend. The emulation is running just excellent, except one minor thing: if the

audio system is turned on, it's causing minor lagging in anything game, and underrun counter freezes on the place (is this all good?). But, the emulation begins to work just flawlessly when i turns off the audio. In this case, the underrun counter starts counting again. Also, PPSSPP begins to lag insanely, if I'm forcing emulation to stop through the Dev menu. This is pretty strange issue. My system specs is: Notebook Acer Aspire 5750G, Intel i3 with 2.1 GHz and 3 GB RAM DDR3, Nvidia GeForce GT540M 1 Gb onboard, new HDD 500 Gb Hitachi TravelStar, OS is Windows 7 x64. This is a pretty good machine for gaming. This issue will be solved soon, I hope. Sincerely, Terrarian51. You can click "Off". For example, if you don't know or you don't like the "1" setting.
