subscription to cable or satellite HD service will require a new decoder box, while Blu-ray or HD DVD playback will require a new player. But it's the display device that has caused most of the industry kaffuffle around HD. Put simply, you need an HD-ready TV and if you bought a new TV - even a super-de-duper, wallet-buster of a plasma - before the beginning of this year, the chances of it being HD-ready are slim. For starters the display device needs to be able to resolve at least 720 lines of information and 70-80 per cent of plasma TVs that have been sold in the UK fall way below this specification - usually only offering 480 lines (640x480 pixels). As we've pointed out in the past, this isn't even enough to fully reproduce PAL broadcast TV let alone the proposed HD transmissions. Worse still, even range-topping plasma and LCD TVs with 720 lines or more may not be able to receive HD. Namkaran 22nd September 2017 Full Episode Naamkaran 22nd September 2017 Star Plus Serial.
